WE STORE

ACI performs our studies using G.E. Vivid i ultrasound machines. ACI uses a cloud-based PACS with structured reporting solutions via Studycast. This HIPPA compliant software offers ACI the capability to rapidly and efficiently transmit data securely in the cloud, which provides reading physicians immediate access virtually anywhere.

STAFFING SERVICES

ACI provides personnel and equipment necessary to perform cardiovascular sonography. ACI sonographers are available to cover during vacations, staffing changes and high volume days.

**Our technology is mobile and portable-
we deliver it to you.
Where you need us – when you need us.**

ADVANCED CARDIAC IMAGING, LTD.

MISSION

The mission of Advanced Cardiac Imaging, Ltd. (ACI) is to make improving healthcare easy. Through the hands of our highly skilled, licensed professional sonographers, ACI provides comprehensive state-of-the-art, innovative, and cost effective diagnostic ultrasound. ACI works seamlessly with the primary care physician, the patient, and interpreting physicians to deliver the highest quality diagnostic imaging study. We strive to exceed the expectations of care for your patients, their families, and you, our healthcare partner.

CHERYL JACKSON, RDCS, ACI PRESIDENT

Cheryl Jackson is president of ACI and holds the prestigious credential “Registered Diagnostic Cardiac Sonographer” (RDCS) from the American Registry for Diagnostic Medical Sonographers (ARDMS). She also is a member of the American Society of Echocardiology (ASE) and The Society of Diagnostic Medical Sonography (SDMS). Cheryl has over 20 years experience in cardiac sonography, specializing in adult and pediatric echocardiography. Under her leadership, ACI has an exceptional track record based on presenting the highest quality diagnostic images, reliability, and responsiveness resulting in an unparalleled patient experience.
